

SENATOR RICHARD NIXON, left, Republican nominee for vice president of the United States, shown in Porterville at the 1950 banquet of the Tulare county Cattlemen's association, seated with Jack Chrisman and Mrs. Chrisman, Visalia; Ralph Jones and F. R. Farnsworth, Porterville and Hugh S. Cameron, head of the division of veterinarian science at Davis. Senator Nixon, who attended elementary school in Strathmore, also spoke briefly at dedication of the American Legion building in Porterville and was speaker at the Lindsay chamber of commerce two years ago. He is a nephew of Mrs. Harold C. Beeson, of Lindsay, and Ezra C. Milhous of Prairie Center and a cousin of Mrs. John Fink of the Welcome district. Senator Nixon is a graduate of Whittier college and Duke University law school and has served with distinction in the United States House of Representatives and the Senate. (Farm Tribune photo.)

## STAFF CHANGES AT HOSPITAL

Staff changes at the Tulare-Kings Counties Joint Tuberculosis hospital in Springville were announced this week, with Dr. W. A. Winn, medical director and superintendent, stating that Dr. Patrick Maloney has been named assistant medical director and superintendent.

Dr. Winn said that for the purposes of administrative efficiency and economy, he is doing away with the position of assistant administrator, held by A. J. Lappi, and returning to the old system under which all affairs of the hospital are centralized under the medical director.

New members of the hospital staff are Dr. Grant L. Hyde, a graduate of George Washington university and medical school; Dr. Joseph C. Woo, also a George Washington graduate and Dr. Maloney, a graduate of the National University of Ireland. Dr. Anthony L. Weaver is going into his second year as resident physician. (CONTINUED ON PAGE 2)

## Ranchers Urged To "Think Safety;" Fifteen Rules Listed By Council

With next week — July 20-26 — set as National Farm Safety week, ranchers of Tulare county are being urged to "adopt right attitudes, think safety and act safety," while Farm Advisor John H. Foott calls to attention the fact that unless farmers "do the job of stopping accidents, the job will not be done."

As a guide to where danger lies on farms and what can be done to promote farm safety, the National Safety Council lists the following 15 rules:

1. Keep walkways and steps in good repair, unobstructed and well lighted.
2. Keep ladders in good repair and easily accessible in case of emergency.
3. Always stop a machine before unclogging, oiling or adjusting it.
4. Keep all machine guards and safety devices in place.
5. Don't wear loose and floppy clothes around machinery.
6. Start tractors smoothly and turn corners slowly . . . avoid ditch banks and soft ground . . . always hitch to the drawbar.
7. Know and obey all traffic laws. Always be a safe driver or pedestrian.
8. Speak to animals when approaching them. Keep them calm by acting with calm self assurance yourself.
9. Always keep bulls in safe bull pens. Never handle bulls unless they are properly restrained.
10. Don't use kerosene to start fires. Pour gasoline or kerosene outdoors to prevent the accumulation of treacherous vapors. Dry clean outdoors.
11. Don't smoke around the barn.
12. Apply first-aid promptly, even to minor injuries.
13. Use the right tools for the job . . . make sure they are in good condition . . . keep them in a safe place.
14. Keep guns unloaded except when actually using them. Treat every gun as though it were loaded. And never aim at anything you don't want to shoot.
15. Never swim alone. Never dive into water without first determining its depth. And be careful around boats of any kind . . . never stand up in small boats.

## HOSPITAL WILL BRING DEVELOPMENT

An idea of community development that will be brought about by opening of the Porterville State Home east of Plano next June was given by L. G. Peterson, construction supervisor for the state department of architect on the hospital job, when he spoke before the Porterville Rotary club Tuesday noon.

He said that when the hospital reaches its ultimate capacity of 3,600 patients, 400 employees will be required, with probably 60 per cent of these employees living off the hospital grounds. Payroll will run \$1,200,000 annually.

An estimated 300 out-of-town visitors will come to the hospital over the weekends, requiring lodging off the grounds. Probably 250 families, or more, will move to Porterville permanently in order to be near relatives in the hospital.

The tremendous amount of food needed to take care of the 4,000 hospital patients and personnel will be purchased on contract, Mr. Peterson said, however, in many types of food items and in livestock, producers in the immediate vicinity of the hospital will be in an advantageous position to make competitive bids.

Concerning progress of actual hospital construction, Mr. Peterson said that \$8,800,000 worth of contracts are in actual operation now. He said that ultimate cost is now set at \$22,200,000 and that five years will be required to complete the construction project. (Continued on page 8)

## Operation Sky Watch Needs Volunteer Help

Wanted — Volunteers to man the air watch lookout post that is being operated now in Porterville by the Ground Observers corps in connection with a national "air alert" along the Atlantic and Pacific coasts, and the Gulf coast line.

In cooperation with the military, an around-the-clock alert started Monday of this week and will continue for an unknown period of time. Ground observers augment the military radar system that has been in operation for over a year.

Supervisor of the Porterville Ground Observers' unit is Irvin Gibson, assistant supervisor is Charles Deacon. About 168 persons are needed to operate one observation post in two-hour shifts on a 24-hour basis.

Persons desiring to volunteer for the work — which is part of the general national defense program — should contact Mr. Gibson or Mr. Deacon.

## Budget Hearing Set August 4; Matzke Elected

Public hearing on the 1952-53 budget for Porterville Union High School and College will be held at a meeting of the board of trustees the evening of August 4 at the high school, with date announced following final review of the \$868,800 budget Monday evening. Tax rate on the proposed budget will remain the same as last year — \$1.10 plus two cents for non-certificated personnel retirement.

Elected chairman of the board Monday was Herman Matzke; Mrs. Neva Darr was reelected clerk. Sworn in as new members were Ray Hutchinson, Poplar, and Ralph Army, Springville, who replaced former chairman Vernon Gill of Springville and Emory Kincaid, Porterville.

Mr. Army was named president of the Galt Foundation and Board Member Francis Muller, Ducor, secretary. The foundation provides scholarships for high school and college students.

Concerning the school budget, principal items of increase are in teacher salaries and reserve funds. From state sources the board expects to receive some \$303,200; cash carryover amounts to \$185,000.

Building program is moving ahead at the school, with a music building and a stadium now under consideration. Amount remaining in the building fund is \$611,000, of which \$500,000 is earmarked for a proposed college plant and school farm expansion.

It is stated that original citizens' advisory committee may again be called in by the board to consider future building.

## Fishing Good At Lewis Camp

"Fishing is wonderful" at Lewis camp, according to Game Warden Ross Welch, who came out of the mountains Monday after a trip with Bob Bennett and Wendell Eckert. The Welch party met Dr. Robert Karstaedt, and family, and Walt Pratt at Lewis Camp, this party on the way in for a couple of weeks in the back country.

## SLEEPING SICKNESS REPORTED

Ranchers are this week being warned by veterinarians to vaccinate horses for encephalomyelitis, commonly called sleeping sickness, since eight cases of the disease have been identified and treated in the southern Tulare county area in the past few days and other suspected cases have been reported from other points in the San Joaquin valley.

The disease, which attacks human beings as well as horses, is apparently far ahead of its usual schedule this year, since it does not ordinarily appear until late summer or early fall. Some years, few is any cases occur, in other years the disease can suddenly reach epidemic proportions.

With the number of cases in horses high this year, and with cases also reported in human beings in the valley, health authorities this week issued a warning from Sacramento that there is a possibility that this will be an epidemic year unless proper control measures are taken.

Seasonal vaccination that includes two "shots", a week apart, provides protection for horses. In its usual pattern, cases of sleeping sickness are first reported out on the floor of the valley, then the disease seems to move in toward the foothill country.

The San Joaquin valley is recognized as a "hot spot" for sleeping sickness and much of the original experimental work in control of the disease was done in the valley. Mosquitoes carry the disease.

## Prizes Offered Fishermen In Trout Derby

Prizes valued at \$170 are being offered to fishermen who compete in the first annual Springville Trout derby that is slated for the Tule river, Saturday, July 19.

All fishermen competing must register at the derby booth in front of the Tule River Sporting Goods store in Springville. The derby contest will run from 5 a.m. until 7 p.m., Saturday, and all catches must be checked in prior to 7 p.m. at the booth. Fish entered in the derby must be caught within the designated hours on Saturday.

Prizes are being offered for the biggest trout and the heaviest weight limit. Fish may be taken along any branch of the Tule, or tributaries.

A special event for women and children is planned for the Soda Spring pool at Springville between 3 and 5 p.m. A fishing outfit will be given to both the woman and the child who catches the most trout in the two hour period at the pool.

The trout derby is sponsored by the Springville Progressive club.

## Stanley Knight Has High Cow

Stanley Knight, Tipton, had the high cow in the Tulare County Dairy Herd Improvement association that completed a 305-day lactation period in June, a registered Jersey that produced 14,428 pounds of milk and 704.3 pounds of butterfat.

## Large Group Of 4-H Members At Second Camp

More than 60 4-H club members from southeastern Tulare county have enrolled in the second session of the 4-H summer camp that opened at Whitaker forest. Included are:

Mary Bumanglag, Patsy Garrett, Wilma Jean Johnson, Elizabeth Logrecco, Linda Ledbetter, Jean Rusk, Clara Wankum, Janice White, Thelda White, Phyllis Williams, Butch Andreas, Roger Andreas, Dennis Hampton, Dale Hampton, Billy Horner, Richard Kramer, Jack Meeker, Edwin Peachey, Claude Peachey, Eddie Solomon, Earlimart, Phyllis Williams, Linda Hutchinson, Brenda Sue Santry, Judy Taggard, Peggy Taggard, Loyd Beaver, Richard Callison, Frank Fruit, Pleasant View;

Nancy Gray, Donald Etchison, Carolyn Vaznaian, Wesley Wiesenberger, Marvin Weisenberger, Burton; Karen Mays, Peter Hoppe, Noel Wheeler, Success Valley;

Evelyn Bowles, Peggy Dill, Louise Fairley, Patricia Hefner, Betty Hughes, Kenneth Aeschbacher, Charles Aeschbacher, Larry Awbrey, Glen Hammond, Eric Luker, Richard McFarren, Ronald Terry, Dewayne Thompson, Robert (Continued on page 8)

## Swimming Pool Open To Public

Green Mill plunge in Porterville was opened to the public this week by C. H. Weed, owner, with Veryl Herbert, of Springville, in charge of operations. The pool will remain open through the summer, according to Mr. Weed, with daily hours 1 to 8 p.m.

## SPRINGVILLE NEWS

By Winnie Gage

Mrs. Doris Schlinler and son, Craig, of Monra, Wis., is visiting her mother, Mrs. L. Young, and her sister, Mrs. Donna Fleming, of Taft.

Kelsey Duncan, one of Springville's oldest pioneers died July 2, at his home, he was a native of Missouri, was taken to Nevada in a covered wagon in 1862. In 1866 the family moved to Porterville, where Duncan lived for a number of years. He spent most of his life in Springville. Mr. Duncan was 90 years old, he is survived by his widow and a daughter, Mrs. Syble Jordan, of Exeter; a son, Guy Duncan, of Springville; two stepchildren, Mrs. Dora Main, Hollywood, and Allen Hodge, Springville; six grandchildren and six great grandchildren. Funeral services were held in the Webb Chapel in Lindsay. Rev. Alfred Chandler of the Lindsay Methodist Church officiated. Mr. Duncan will be greatly missed, not only by his family but by all who knew him.

Mrs. Don Dotters and children visited relatives in Bakersfield last week. Pat McDonald and Don Dotters flew by plane to Rockport on a business trip over the weekend.

Mrs. George Myrick and daughter, Shirley, have returned home after a few weeks in Riverside, where Shirley attended a short business session at Riverside City College.

Mr. and Mrs. Raymond Grimes and Mrs. Lyman Gage attended the wedding of Glenn Ayers of Hanford and Miss Marian Kramer, daughter of Mr. and Mrs. Herbert Kramer of Delano; at the Delano Methodist Church Saturday evening.

Mr. and Mrs. Homer Miller of Lindsay, were Sunday guests of Mr. and Mrs. Nile Hendricks.

Mr. and Mrs. Will Radeliff and daughter, Virginia, are visiting in San Diego this week with Stanley Radeliff, who is in the navy.

Mr. and Mrs. Lloyd Skiles and daughter, Karan, drove to Los Angeles Sunday to meet Mr. Skiles' sister and husband, Mr. and Mrs. Clyde Colby of San Diego. Karan returned to San Diego with her aunt and uncle, and will also visit with another uncle, Floyd Skiles. She expects to stay two weeks.

Friends of Jim Taber will be glad to know that he is rapidly recovering from a chest operation at the Springville T. B. Sanitarium and is expected home in about ten days.

A Pink and White tea was given at the home of Mr. and Mrs. Herbert Diffenbaugh on Monday evening, July 14, in honor of their daughter, Nancy Mae. Games were played and ice cream and cake were served to Marlene Acree of Bakersfield, Marilyn Cain, Rosa Booth, Barbara Rowland, Darlene Sweeney, Nancy Farmer, Jackie Root, Christinia Ming, Earlene Moore, and Peggy Askins.

Mrs. Minnie Hensley attended a Stanley Area meeting in Fresno.

The Farm Tribune was declared a Newspaper of General Circulation on January 10, 1949, by judgment of the Superior Court of the State of California, in and for the County of Tulare.

### TITLES AND LETTERS DON'T ALWAYS MAKE THE MAN

Too often a highly educated man turns out to be an impractical man. Too often, a man who may have a string of letters after his name, a fine record as a student and possibly the ability to do highly technical work in a given field, turns out to be a poor administrator — a man without the practical ability to select a qualified group of individuals, put them in their proper places then organize them into a unit designed to do a specific job.

If a highly educated man who turns to general business is unable to manage and to organize, economic laws usually take care of him in due time. But when an educated man gets into the field of education, particularly into an elective office in that field, then turns out to be unable to organize and manage, it often becomes difficult to immediately do anything about the situation.

A case in point is the present county superintendent of schools. J. Post Williams is an educated man — he has to be to meet the high qualification of the county office. But Mr. Williams has proved by his conduct of the office that he lacks among other things, the ability to manage and to organize.

The 1951 Tulare County Grand Jury report was quite clear on this point. The jury charged Mr. Williams with general administrative inability; business mismanagement; curriculum mismanagement and personal malfeasance. In the business world, economic laws would have taken care of Mr. Williams long ago, but in an elective office, he is able to sit tight — as he apparently intends to do — hoping that voters will forget by the time the 1954 election rolls around.

It is unfortunate that Mr. Williams has not seen fit to resign. Whatever effectiveness he might have had in the past is now lost in view of the grand jury report; we doubt that he can be of much service to county schools during the remainder of his term in office and we know that if he attempts reelection, the campaign will be rough indeed.

Tuesday. She has worked for Stanley Co. for five years and has a good record of salesmanship.

Mr. and Mrs. Jerry Malley have returned home after a month's visit with relatives and friends in Chicago, Illinois.

Lt. Loren McDonald, son of Mr. and Mrs. Joe McDonald, has been put in inactive duty after two years of active service in the navy, he was in service in World War II. Mr. and Mrs. McDonald and children, Mark, Jimmy, and Joan are now vacationing in the mountains. They will make their home in Porterville where Loren has employment in Jones Hardware store.

Mrs. Carrie Graham and daughter, Nancy, of Salinas, visited Mrs. Graham's sister and husband, Mr. and Mrs. Jack Hensley.

## Merchant Group To Name Officers

Members of the merchant committee of the Porterville chamber of commerce will meet tonight, Thursday, 7:30 o'clock, Porterville city hall, to elect officers and to discuss various other matters.

City Manager Charles Cummings will discuss problems that will arise concerning street dec-

orations when new light standards are installed on Main street and Police Inspector Bob Searle will explain a new check cashing technique, being developed by the police, for the protection of merchants.

Charles Hester, present chairman of the committee, states that all interested business men are invited.

## FINS UR EATHERS

By Phil The Forester

A special winter season has been approved for the Barton Flat deer herd of Fresno and Tulare counties. Hunters wishing to participate must file application for permit in person at the Fresno fish and game office from 8 a.m. to 5 p.m., on August 15 or 16. Shortly thereafter 500 permits will be selected on a lottery drawing.

Lucky applicants will secure their permits at the Fresno fish and game office during business hours from August 20 to 23, inclusive upon payment of a \$5 fee. The special hunts will be divided into four periods during November with 125 hunters participating each period.

This year, for the first time, applications for any and all special deer hunts will be found attached to the 1952 deer tags. Barton Flat applicants must have in possession a valid license and deer tags when applying for a permit. The shoot will be conducted on

a "hunter's choice" basis.

About 50 percent of the Barton Flat wintering deer are reported to be National Park animals that do not come down into the open hunting country during the regular season and quite a number of real trophy heads will be available according to all accounts.

### FLYING FISH

Airplane trout planting got under way in Fresno and Madera counties last Tuesday with a schedule of 36 lakes to be stocked with some 200,000 fingerling trout.

Pilot Al Reese reported that all but two lakes in the area were open, which will indicate to the angler that wide spread back country fishing is now available.

Most of the high elevation lakes of Yosemite however are still frozen and a later plane planting schedule has been arranged for the park.

Stanislaus streams are back to normal and fishing has improved. The Merced River is low and black bass fighting has been fair to good. Kern county reports good trout fishing in most all rivers and creeks. Poor in the Mineral King area of Tulare county.

Water has been shut off from the San Joaquin river at Sack Dam near Dos Palos and thousands of crappie, black bass and catfish are being taken by anglers in the low water. Fear has been expressed that many game fish will perish if some water release arrangement can not be made soon. In the meantime, anglers take note of a big supply of easy to take fish.

### ABALONE TIDES

Abalone and clam diggers will find minus tides next week.

Deep sea fishing in the Avila area has been excellent.

H. G. Cline, Chowchilla, writes, "Would it be lawful to take minnows by net for personal use and if so, what kind?"

Nets of not over 1/2 inch mesh and not more than 4 by 30 feet may be used to take fish of the carp and minnow family, suckers, sculpins and mosquito fish. The rough fish may be taken for bait only in lakes, impounded waters and conduits.

State apricot crop is now estimated at 155,000 tons, considerably less than in immediately previous years.

## Growers Urged To Consider Price Of Freestone Peaches

At a growers' meeting held at the Fresno Farm Bureau hall, July 9th, it was agreed that present conditions of supply and movement of processing freestone peaches indicate that there should be a good demand for these peaches this year.

It was further agreed that the processing freestone crop is lighter than originally anticipated this season. This may be one of the factors that is contributing to the unusually large average size of the peaches.

In view of the foregoing factors, hope was expressed that growers would recognize these factors and not be over hasty in pricing their fruit too low.

The meeting was called by E. G. Blayney, chairman of the Freestone Peach Growers committee.

State trappers destroyed 630 predatory animals during the month of May in California.

## AZOMITE

### NATURE'S ANSWER FOR HIDDEN HUNGER

### An Astounding Discovery For All Poultry and Livestock

AZOMITE is the only known product of its kind in North America. It is a natural mineral tufa and contains an abundance of essential minerals so vital for poultry health. Nation-wide tests have proven there is no similar product on the market that satisfies poultry as completely as AZOMITE.

AZOMITE restores mineral balance and helps to control nervousness and feather picking.

NO OTHER so-called grinding agents are needed when using AZOMITE.

THE MORTALITY of baby chicks and poults is substantially reduced when AZOMITE is made available from the very beginning.

Azomite Satisfies All Poultry and Livestock

## PORTERVILLE ENTERPRISE April 28, 1899

### Daunt

A. W. Hickman and N. Brainard have been prospecting in the mountains.

I. R. Clement of Globe has a very fine lemon orchard, which is nice to look upon, as scarcely a leaf was frozen.

Daunt Labor Exchange is doing a good business. There will be a regular meeting of the board the first Saturday in May.

C. E. Brockett's exhibition at the close of his school was a grand success and there were about 160 people present.

R. G. Williams has the contract to furnish the Enterprise Mill Co. with fresh meat this season.

George Hall of Hanford made this valley a short visit last Sunday.

### PORTERVILLE

The field day at Tulare between the Tulare and Porterville juveniles resulted in favor of the Tulare boys, the Portervilles only winning one event, viz., the shot put. They stated they are not altogether pleased with the way they were treated; in some of the events they did not get a fair show and during their work they were subject of much jeering and halloaing, whereas when the Tulare boys were here, they kept everyone quiet and gave them a fair show. To add insult to injury, an egg was thrown, hitting one of the Porterville boys on the head and staining others' clothes. The Enterprise is sorry anything of the kind took place and would think that proper courtesy should have been shown.

This year the roses are beautiful and some yards are truly pretty. Mrs. Bonine in the West field has between 50 and 60 varieties. Mrs. Zalud, on Gum street, has a fine collection of roses, the gem of the collection being a native of Honolulu, and was given to her by a friend there.

Mrs. L. J. S. Bailey completed taking the school census Tuesday and reports altogether 475 children in the Porterville school district, of which 332 are of school age. This will entitle the school to only five teachers next term; the number of teachers in a school is fixed by law at one teacher for every 70 pupils or fraction containing 20 or more.

Miss Zona Williams left Monday for Visalia.

Frank Putnam returned from San Jose, Sunday.

Yesterday, Mrs. Harvey Frame

took the train for Visalia.

Mrs. F. O. Putnam went to Campbell, in Santa Clara county, yesterday.

Mrs. Alice Farnsworth of Hanford is visiting her mother, Mrs. John Willis.

Dr. Frank Taylor of San Francisco is visiting Mr. and Mrs. W. W. Henry.

Mrs. W. Davison, of Fresno, arrived Tuesday on a visit to her sister, Mrs. J. F. Boller.

H. L. Manter and Nelson Hallock came down from White River Tuesday, on business.

Mrs. E. N. Gay, who has been teaching school at LaMotte district, returned to Gilroy, Monday.

## THE FARM TRIBUNE July 16, 1948

The 27-mile section of the Friant-Kern canal between Lindsay and White River will actually be under construction by November of this year.

A new system of handling peaches has been placed in operation at the Williams and Sons ranch at Cotton Center, where the fruit is being packed in the orchard as it is picked, the packing equipment and packers moving through the grove on specially-constructed trailers.

Use of Tule river water at the John Warnock ranch on the Springville highway was questioned at a meeting of the Tule River Water Users association held Wednesday evening at the Porterville city hall.

## County Assessed Value Jumps To \$152,724,045

Assessed value of Tulare county for the current fiscal year has jumped to \$152,724,045, an increase of \$10,566,260 over last year according to County Assessor George Prestidge.

Visalia has the highest value of any county town — \$12,412,906; other towns run: Tulare, \$8,843,485; Porterville, \$6,819,120; Dinuba, \$3,175,304; Lindsay, \$4,206,625; Exeter, \$3,006,020; Woodlake, \$963,245. This brings total in incorporated areas to \$39,453,225.

Total for unincorporated parts of the county on the secured roll is \$103,174,140.

On the unsecured roll, Mr. Prestidge reported a total of \$4,809,590 worth of assessable property inside incorporated cities and \$5,287,090 outside the cities.

National Fresh Peach week has been set as July 21-27.

## "Electric service"

means "electricity"—and a lot more!

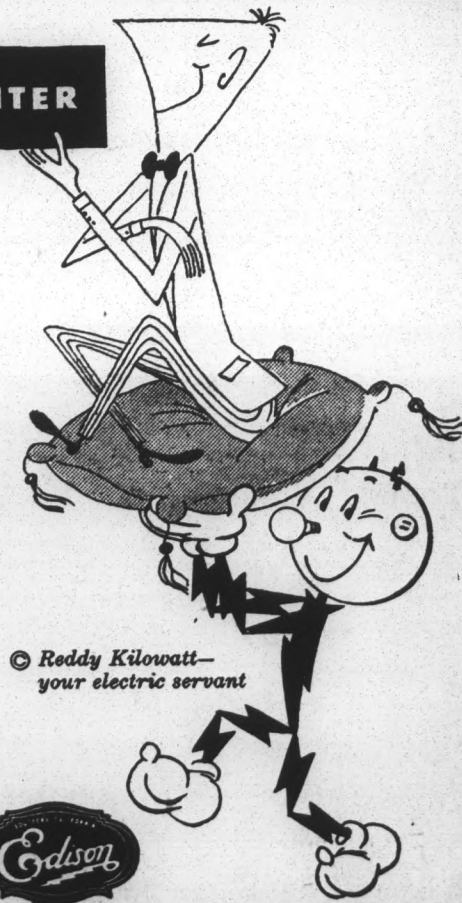

We think it should be emphasized that the electric industry is engaged in providing you with electric service—not just with electricity. There's a big difference. Actually, it's the service end of the business which has been making your living better every year, by developing new and better methods and machines for your home, and for farm and industry. Supplying electric service requires people with just about every skill you can think of, and electric companies employ them to help you use electricity wisely in every aspect of modern living.

"Edison electricity is your best buy—you can depend on it!"

**GRAND JURY COMMITTEES ARE NAMED**

Committees of the 1952 Tulare County Grand jury were announced this week by Jury Foreman Robert C. Doris, of Waukena, as follows:

**Agriculture and Irrigation** — Jack K. Tod, Lemon Cove, chairman; Hugh W. Monroe, Woodville; C. L. Pruner, Lindsay; and Laurence Anderson, Springville.

**Auditing** — Alfred Browning, Porterville, chairman; William P. Nash, Jr., Visalia; Thomas B. Lally, Visalia; G. A. Richardson, Lindsay.

**Education** — Paul S. Gram, Visalia, chairman; Mrs. Charlotte M. Peterson, Tulare; Ralph W. Gould, Springville; Dr. R. A. Vanderhoof, Woodlake; Paul L. Yager, Tulare.

**Health and Hospital** — Dr. Vanderhoof, chairman; Mrs. Peterson; Mrs. Delman Owen, Lindsay; Mrs. Grace J. Mead, Visalia.

**Highways** — Alden H. Burr, chairman; Mr. Yager; Mr. Monroe; and G. A. Richardson, Lindsay.

**Juvenile** — Mrs. C. H. Olsson, Pixley, chairman; Mr. Nash, Mr. Monroe, Mrs. Owen, Mr. Gram and Mrs. Meade.

**Geese Used To Reduce Grass In Cotton Fields**

Geese are being used in Merced county cotton fields to eat out

**Law Enforcement** — Mr. Gould, chairman; Jack L. Davis, Visalia; C. L. Pruner, Lindsay; and Mr. Tod.

**Legislation** — Mr. Richardson, chairman; Mr. Burr; Mr. Anderson; Mr. Davis; and Mr. Gould.

**County Properties** — Mr. Yager, chairman; Mr. Nash, Mr. Lally; and Mr. Browning.

**Taxation** — Mr. Davis, chairman; Mr. Yager; Mr. Tod; and Mr. Anderson.

**Welfare** — Mr. Pruner, chairman; Dr. Vanderhoof, Mrs. Meade, Mrs. Olsson, and Mr. Burr.

Johnson grass and bermuda grass, with Herman Willis, of Dos Palos, who introduced geese into his cotton fields last year, reporting that cost of cotton chopping is materially reduced and may be eliminated by use of geese.

Last year, Mr. Willis put 100 geese on a 25-acre plot of cotton that was overrun with Bermuda and Johnson grass. The geese thinned down the grass to a point where only two geese per acre are controlling the grass this year, and yield from the piece has increased.

Mr. Willis is raising his own flock of geese to run on 600 acres of cotton and a commercial hatchery at Merced is now selling geese. In addition to cutting chopping costs and killing out grass, the geese can also be developed into a profit-producing farm poultry

THE DOLLARS you are spending for groceries can do double work for you through the food plan that Joe Cemo is offering at **DEPENDABLE REFRIGERATION**, 1101 West Olive street in Porterville, for Mr. Cemo has set up a plan that he considers second to none, and the upright, **SUB ZERO** home freezer that goes along with the plan just can't be beaten, in the opinion of Mr. Cemo.

THIS IS the way it works. You pay 10 per cent down on your new **SUB ZERO** home freezer, then select up to \$250 worth of frozen foods to go into the freezer. You pay nothing down on the food, you pay no interest on the food price and you pay off the entire deal on a 24-month plan.

WHAT ABOUT that double duty work for your dollars? As Mr. Cemo explains the situation, you get the best possible buy on your frozen foods — a real money saving bargain — to begin with. By having a supply of food on hand in your home, you save shopping time and worry, and because of the saving you make on the food, the entire payments on your **SUB ZERO** home freezer, filled with food, will probably run only slightly more than you are now paying for food alone.

AND HERE is an important point. Just about everyone is going into the home freezer business these days, and many food plans are being offered. At **DEPENDABLE REFRIGERATION**, you deal with a firm that knows the refrigeration business. Mr. Cemo has been in refrigeration work for a number of years, and he will be in the refrigeration business during the years ahead. As an added premium, you get the benefit of this knowledge and experience in refrigeration when you deal with **DEPENDABLE REFRIGERATION**.

AND WHY A **SUB ZERO** FREEZER. To begin with, Good Housekeeping magazine says "Your best buy in a home freezer is an upright with contact plates on each shelf." **SUB ZERO** has these features; plus inner compartment doors, as Mr. Cemo points out in the above picture. It has 4 1/2 inches of fiberglass insulation, it has the famous 1/3 horsepower Tecumseh sealed unit, it has temperatures down to 50 below zero for quick freezing and zero temperature for usual operation, it carries a five-year factory warranty and an all-risk food insurance plan, and it is sturdily built throughout to provide many years of real service.

**Large 4-H Group**

(CONTINUED FROM PAGE 1)

Trask, Prairie Center.

Doreen Lamb, Joann Lee Laws, Evon Wilson, Roy Wilson, Strathmore; Larry Deovlet, Ronald Deovlet, Billie Sandborg, California Hot Springs; Dallas Cole, Arlen Cole, William Cushing, Tipton, and William Pennington, Joseph Pixley, Springville.

A new feature of the camp is a newspaper, edited by 4-H members, and demonstrations by Allan Savage on "How To Pack A Mule For A Pack Trip." Each week, Henry Schmidt, assistant chief range, Kings and Sequoia Na-

tional parks, demonstrates forest fire fighting equipment.

Counselors for the second week of camp include: Mrs. Shannon, Mrs. Emmerson, Evelyn Gummow, Virginia Andreas, James Andreas, Jo Ellen Wilson, Troy Jeffries, Frances Wilson, Virginia Homfeld, Dickie Wilson, Betty Muller, Willa Jean Lane, Mrs. Paxton, Mrs. Hengst, Mrs. Cooley, Mrs. Rue, Mrs. Tripp, Kenneth Kramer, and William Sallee, 4-H advisor.

**Special Hunt**

A special "hunters' choice" deer hunt has been authorized for Barton flat by the California fish and game commission. The hunt will be limited to 500 hunters; season is November 16-29; applications to hunt may be obtained from the commission office in Fresno, August 15-16.

**Hospital Brings**

(Continued from Page 1)

gram.

Boiler house, that includes two large boilers and two water softening units, to supply steam for the entire system of the hospital plant, is about complete, Mr. Peterson said. Laundry building is also near completion; three units of the hospital school, that will eventually include seven units, have been started; commissary building will be completed in about 60 days; 13 ward buildings, each housing 70 patients, are virtually completed and contracts for seven additional ward buildings have been let. Hospital building, on the grounds, is about 60 per cent complete at present.

Water reservoir and sewage disposal plant are complete and pumps are installed on two wells along the Tule river bottom to pump water into a booster station, where water will be chlorinated then boosted into the reservoir on the side of Mentz hill that will feed the state home water system.

Mr. Peterson said that the home will house epileptics and persons who are mentally deficient — including a number of children. Patients will not be of the "violent" type, Mr. Peterson declared.

No large agricultural or livestock project is now planned in connection with the hospital, according to Mr. Peterson, although he did say that some hogs might be kept to consume garbage.

Mr. Peterson said that he had now been in Porterville for one year and that in his 18 years' experience in the construction business, he had never been treated in a more friendly manner in any town. He said that he would like to some day settle permanently in the Porterville community.

The speaker was introduced by C. R. Williams, who served as chairman of the day.

**Elementary School Budget Set At \$673,895**

A 1952-53 budget of \$673,895 was approved Tuesday evening by trustees of the Porterville Elementary school district, with items of \$30,000 in general reserve and \$57,659 in undistributed reserve included.

Tax rate will run 98 cents, composed of 90 cents general, four cents to cover non-certificated personnel retirement, two cents for "community center" activities, and one cent for meals for needy children.

Anticipated income from the state is \$437,834; from district taxes, \$151,198.

Approved by district trustees were contracts for Jerome R. Kuhlmann, instrumental music teacher for grades 4, 5 and 6 and

**COLUMBIA-MATIC**

Frameless Screens

OFFER EVERY ADVANTAGE

Maximum Protection - Greatest Convenience

These screens can be installed in a fraction of the time of ordinary screens because there is no wood frame that must be planed down to fit the window. They are quickly, easily opened, closed or removed; and windows can be washed comfortably without removing the screens. They roll into a small space for easy storage. Made of aluminum, they never need painting, never rust and last indefinitely.

IRECO "Land Tailored" SPRINKLER SYSTEMS

The Heart of a  
Sprinkler System  
is the

COUPLER

**MORE PROFITS AND BUMPER YIELDS  
RESULT FROM SOUND ENGINEERING**

Look to the IRECO organization with nationally recognized agricultural engineers, the IRECO Distributors and Dealers with the "Know-How" to tailor your system to your land.

**The Famous Ireco Coupler**

A positive-locking, die-cast aluminum coupler with the gasket that protects the tubing. Available in "Bolt-on" or "Press-on" styles.

**A TRIBUTE . . .****To Our Merchants!**

Storekeepers, we think, are entirely too modest. They serve you and your family faithfully every day. Yet how often do you remember their importance in your life? The merchant is a businessman. He must carry a heavy investment. He must own his building or pay rent for it. There are clerks and salespeople to pay. And a constantly-changing display of food or merchandise of some kind. The merchant must always make you think that "the customer is always right." Which isn't always true. So remember the trials and tribulations of your grocer, cleaner, department store merchant, et cetera. And give them the fairness THEY deserve!
